1. The following observations were made in regard to the units in Doeberitz on 5 September 1955:

a. Unit Vasilyev

Colonel Vasilyev (fnu) was absent. Captain Panfilov (fnu) and Major Zaitkin (fnu) were seen in building No 59. There was intensive activity by soldiers wearing black-bordered blue epaulets in the quarters which were heavily occupied. The gate near building No 59 had been closed and the guardhouse at the gate was removed. Some groups of soldiers wearing black-bordered blue epaulets were seen marching from the building formerly occupied by the motor vehicle training battalion through the NSKK Kaserne to the eastern section of Richthofen Kaserne. The bill for electric current consumption was paid as follows:

45 percent by Unit Kraiyevoi (workshops and billets)
35 percent by Unit Ivanov (western section of Richthofen Kaserne)
10 percent by Unit Vasilyev (eastern section of Richthofen Kaserne)
10 percent by Unit Voichenko (NSKK Kaserne)

Of the electric current produced by the transformer in the Olympic Village, 25 percent (were) consumed by Unit Vasilyev which was quartered in the building formerly occupied by the motor vehicle training battalion and the remaining 75 percent were consumed by the Loewen Kaserne and Adler Kaserne.

b. Unit Voichenko

According to previous observations, Unit Voichenko was quartered in the former NSKK Kaserne. Major Voichenko (fnu) and Lieutenant Colonel Krazavitski (fnu) were assigned to the headquarters in building No 86.

 Intensive traffic by soldiers wearing black-bordered blue epaulets was observed in the quartering area. Building No 86 housed the headquarters, building No 85 the kitchen for officers and EM; in addition to garages, buildings Nos 79, 80, 81, and 82 housed the billets and buildings Nos 83 and 83-a the garages, of Unit Voichenko. A filling station was seen west of building No 83.

-2-

c. Unit Ivanov

Lieutenant Colonel Ivanov (fnu) was still observed in the headquarters building No 19. There was intensive activity in the quartering area which apparently was heavily occupied.

d. Unit Kraiyevoi

[redacted] Major Borbov (fnu) was on furlough. Work was under way in the workshops and the sound of propeller-driven engines was heard from the test stand. Twenty-eight gray blue crates, each about 2 x 1.5 x 2.5 to 2.8 meters, were observed on sledge runners near the spur track. The crates were fitted with hoop irons, suspension loops near the hoop irons, and reinforced corners. A hand crane mounted on wheels was seen next to the crates. The quartering buildings south of Herold Platz still belonged to the workshops.

e. Unit in former artillery equipment park

Lieutenant Colonel Besvershi (fnu) was in his office and [redacted] Captain Nuzhnikh (fnu) was on leave. Eleven crates with engines were stored in front of a warehouse. The crates had the same size as those observed in the workshops. ¹

2. On 5 and 6 September, the Hoppenrade radio station was still subordinated to Lieutenant Colonel Krazavitski. The installation still consisted of 2 steel masts, each about 15 meters high, braced by 3 guy wires, and interconnected by a simple antenna. A radio truck, a large house tent and a low wooden building were observed next to each mast. Soldiers wearing black-bordered blue epaulets were seen in the installation. ²

1. [redacted] Comment. The reported officers are known by their names and positions.
